Groups

- Student Organizations and USA Department Rate: 75% of participants are currently enrolled students and/or currently employed with USA.

- SRC Member Host Pricing: Member is making the rental request on behalf of a non-member/non-affiliated person as defined by the [University Community Reservation](#) policy.

Attendance and Attendees

All persons who enter the SRC for a specific event will be called Attendees. However, attendees can be broken down into Participants, Spectators, and Event Workers.

- Participant: anyone engaged in the activity of the event
 - For example, if the event is a speaker presentation, a Participant would be anyone who shows up to the space. But if the event is a basketball tournament, a Participant is anyone who is playing in the tournament.
- Spectator: anyone who attends the event but is not engaged in the activity of the event
 - For example, if the event is a basketball tournament, a Spectator would not be playing but would just be watching the tournament.
- Event Workers: anyone who is involved with putting on and hosting the event
 - This would include anyone with the reserving organization or volunteers needed to run the event.

Event pricing will be based on who the Participants are and how many there are as well as the association of the Event Workers. Capacity requirements and extra staffing necessities will be based on the total number of Attendees (Participants, Spectators, and Event Workers) and is called the attendance for the event.

- Participants or Spectators who are minors must be accompanied by their legal guardian. Legal guardians who are not Participants would automatically be considered a Spectator.
- Guest lists or allowed attendees list will be submitted at least three business days prior to the event.
- SRC: All participants/attendees will check-in with the front desk of the Student Recreation Center.
 - Students will need to swipe in via their Jag Card or entering their Jag Number.

- Employees will need to show their Employee ID if they are not members of the Student Recreation Center. Otherwise, they can swipe in or enter their Jag Number.
- All other guests will need to sign-in at the front desk.
 - Guests not listed prior to the event can be subjected to the guest fee of \$10 per guest. (Students and members of the SRC are limited to 2 guests per day)

Facility Scheduling Priorities

In order to meet the varied educational and recreational needs of the campus, a scheduling priority system has been established by the Department of Campus Recreation and Wellness (DCRW). All DCRW facility requests must be submitted online through the Rental Request Form and require approval from the department. Different indoor recreational spaces may have different scheduling priorities based on their intended use and funding base. DCRW is committed to supporting drop-in recreational opportunities. Facility scheduling requests will be limited during peak hours of facility usage. Appropriate fees will be assessed for groups securing recreational facilities for events (both internal and external). The priority list below is representative of recreation facilities on campus. Priority is viewed over time throughout the entire facility and may change depending on time of day, day of week, or time of the semester. Reservations have a better chance of being accepted the further out they can be scheduled.

- **Priority One:** Drop-in/open recreation use for all students/members.
- **Priority Two:** Formal programs administered through the DCRW. This would include aquatic, fitness, wellness, intramurals, department sponsored special events, and summer camps.
- **Priority Three:** Other student and University group usage including but not limited to student organizations, academic classes/programs, University departments, special events, and varsity athletic practices and competitions.
- **Priority Four:** External group usage, hosted by a student organization, university department, and/or SRC Member.

The following criteria are used in rendering decisions to approve or deny facility scheduling requests:

- Impact to existing programs and available spaces
- Scope and nature of event
- Type of reservation group
- Appropriateness of the activity or event
- Compatibility of the activity and the facility in which it will be conducted
- Previous experience with similar events
- Groups ability to meet all requirements relative to usage policies and procedures, facility usage, and event management charges
- Availability of required personnel
- Recurring events are evaluated on a monthly basis
